EXPERIENCE

Associate AI Engineer	2 nd June 2025 - Present
HumanizeIQ	Remote Hazlet, New Jersey, United States

- **Developing Craft Studio**, an AI-driven no-code platform that automates end-to-end SDLC, enabling users to convert requirements/user stories into production-ready full-stack applications within an hour.
- **Integrated Firebase Authentication, admin functionalities, and Stripe payments** across HumanizeIQ products/web applications, ensuring secure user access and seamless transactions for both corporate and consumer users.

Python/AI Developer Intern	15 th Jan 2025 - 15 th May 2025
Tacticone	Onsite Pune, Maharashtra

- Developed AI based full stack web application using **CrewAI** Framework, **FastAPI**, **Next.js**, and **Supabase (PostgreSQL)**.
- Enhanced **SEO** strategies by creating **AI agents** within a full-stack AI-powered web application (**Erlin AI**) to help clients analyze and optimize their content and SEO rankings.

ReactJS Summer Intern	20 th May 2024 - 20 th July 2024
Celebal Technologies	Remote Jaipur, Rajasthan

- Developed and launched a comprehensive E-Commerce Store Website using ReactJS and the MERN stack.
- Integrated secure payment method (**Stripe payments**), leading to a significant increase in successful transactions. Optimized database queries with Mongoose for sorting and filtering, reducing query response time significantly.
- Automated email invoice generation and reset password emails, enhancing user engagement effectively.

PROJECTS

Craft Studio – AI-Powered No-Code SDLC Automation Platform

- Built an AI-driven platform to automate end-to-end SDLC, enabling users to convert requirements/user stories into production-ready full-stack applications within an hour. Integrated Firebase Authentication, admin functionalities, and Stripe payments to support secure access and seamless transactions for corporate and consumer users.
- Developed using **React.js** , **n8n workflows** , **Cloudflare Ecosystem** .

Erlin AI – AI-Powered SEO Automation Platform

- Built **AI agents** using **CrewAI** to extract business insights and generate SEO-optimized content like product descriptions and articles. Developed modules for technical SEO audits across eCommerce pages with issue detection and fix suggestions.
- Developed using **Next.js**, **Shadcn UI**, **FastAPI**, **CrewAI**, **OpenAI API**, **Supabase (PostgreSQL)**.
